Subject: Looking for a multi-skilled, self-learning, dynamic and efficient expert with 22 years of experience and strong communication skills who could both advise and supervise? Look no further!

Dear Madam, dear Sir,

Hereby I send you my application.

My successful professional experiences have given me the opportunity to develop my dynamism, curiosity, determination and enthusiasm to succeed in what I have undertaken. I have thus been able to gain rich and clear ideas about internal business processes, their needs and the financial means necessary for their performance.

After several experiences as IT Manager in different companies, I worked as **Consultant**, then as **Project and Program Manager** then as **Chief Delivery Officer**, which makes a total of **22 years** of real experience in that domain. My assignments having been carried out in very diverse sectors, I also have a lot of experience in very different sectors such as advertising, the media, telecom, banking or even the health sector. My references and letters of recommendation in the appendix will tell you more.

As you will see on my **Curriculum Vitæ**, I am not limited to the skills described above. Indeed, I am also able to meet a lot of needs, and my versatility has always allowed me to be quickly integrated into an existing team.

Although I am currently working as **Program Manager** at **Barco**, I remain available for specific missions in Belgium or abroad.

This desire to bring my own contribution to your company encouraged me to submit a spontaneous application. Convinced that a motivation letter cannot fully describe my personality and skills, I would like to meet you in order to show how motivated I am.

Yours sincerely,

Mathieu Guastella

Recommendation letters

BICS — April 2021

connecting the world,
enabling value

Recommendation letter

Brussels, April 2021

To whom it concerns,

I had the privilege of working with Mathieu as a temporary replacement for a member of my team as Program Manager from June 2020 to April 2021.

Thanks to his communication skills, Mathieu has shown a great facility to integrate into our organisation, despite difficult circumstances due to the lockdown...

Mathieu is very structured and carries out a systematic and meticulous follow-up of the actions identified in his projects. He brings the right people to the table to find solutions, has the conclusions validated and communicates clearly.

On a purely human level, Mathieu is a great person to work with: efficient, flexible and quick... he is able to manage the expectations of demanding personalities and remain professional in all circumstances.

A handwritten signature in blue ink, appearing to read "Carbonnelle", with a long horizontal flourish underneath.

Recommendation letter

Brussels, January 2019

To whom it concerns,

Mathieu Guastella worked in my team in the Architecture, Roadmap & Project Management (ARP) department over the period September 2017 - February 2019 at the Proximus Towers.

Mathieu is a hand-on project manager with strong interest in content of the projects he deals with. He interacts fluently with the different stakeholders and fosters a positive, solution-oriented atmosphere in his teams.

During his mission, Mathieu managed multiple complex projects within the Digital, IT and Telco programs. He took care of all aspects until delivery including Migration, Change Management and Digital Transformation. He contributed largely to the roll-out of Digital & Collaborative Workplace within our company.

I can only recommend Mathieu who will certainly be an asset for any company evolving in the digital world.

Kind regards,

A handwritten signature in blue ink, appearing to read "Piet Lemarcq".

Council of Bars and Law Societies of Europe (CCBE) – January 2019

Brussels, January 2019

Dear Sir or Madam,

The Council of Bars and Law Societies of Europe (CCBE) is a non-profit organisation, representing the European Bars and Lawyers. The CCBE employs a team of 12-15 people who, on a daily basis exchange with the European Institutions, communicate with media and stakeholders, and have to create and produce a lot of material and messages. This requires performing hard- and software, and a reliable ICT infrastructure.

The CCBE has, since 2016, been working with M. Mathieu Guastella who, as an independent IT Consultant, advises us for the modernisation of the IT infrastructure and gives support in terms of maintenance and for the backing up of data.

During this time, M. Guastella demonstrated strong commitment to the CCBE, providing appropriate strategic advices for our digital and IT transformation, facilitating change management and successfully delivering on the various projects in his remit, achieving his missions with creativity, determination and faultless professionalism.

When working with the team, M. Guastella always proved to be an exemplary co-worker, easy to work with – conscientious, approachable and responsive – who rose to the challenges he was faced with and complied with our expectations regarding his role and the objectives of his interventions.

In our view, M. Guastella has definitely the competences, skills and capacities which can be immediately deployed in other professional environments, making him an asset to any organisation. We can therefore recommend him and his services without any reservations.

In case further information would be of assistance, please do not hesitate to contact me.

Best regards,

Philip Buisseret

Recommendation letter

Brussels, 31 August 2017

To whom it concerns,

Mathieu Guastella has worked as a contractor via MatchTech International over the period 1 March until 31 August 2017 in the role of Project Manager, Telematics projects.

The position required Mathieu to contribute to the following projects:

- eCall implementation
- Telematics programmes
- Navigation & connected services development

Each of the projects has involved:

- Defining the scope of the project based on end customer needs
- Translating needs into instructions for engineering and IT counterparts
- Creation of the work breakdown structure and responsibility matrix
- Follow-up, monitoring and reporting of projects

During his time devoted to these projects, Mathieu has worked in a challenging, cross-discipline, multicultural environment and has had the opportunity to understand end-to-end processes in the automotive industry.

We may consider Mathieu for potential future projects in the area of app development and connectivity.

If you require any further information or clarification, please do not hesitate to contact me.

Kind regards,

Jean-Jacques Serraf
